

Walk-N-Clean

Walk-N-Clean is a special mat for entrances or surroundings that have extra high standards for dust and dirt control. It consists of a non-slip base plate with 60 pcs tacky sheets that collect dust and dirt from shoes. The sheets are torn away as they become saturated with dirt. Dirt particles and dust are removed from shoes very effectively. Suitable for laboratories, healthcare, dust-sensitive industry or for food handling. Also excellent for use in house showings or renovations in order to e.g. protect newly laid floors. When the tacky sheets run out, it's easy to install a refill.

Material: Transparent, acrylic tacky sheets. Non-slip white vinyl bottom plate.

Thickness: 7 mm

Fire resistance class: -

Environment: Indoors in environments with extra high standards for dust and dirt control.
